Distributable cash flow	\$	250,364	\$	266,593	\$	477,964	\$	525,535	\$ 1	,100,000

- (1) Because the partnership intends to satisfy vesting of unit awards under its equity-based incentive compensation plan with the issuance of limited partner units, expenses related to this plan generally are deemed non-cash and added back for DCF purposes. The equity-based compensation adjustment for the six months ended June 30, 2017 and 2018 was \$10.7 million and \$16.7 million, respectively. However, the figures above include adjustments of \$13.9 million and \$9.3 million, respectively, for cash payments associated with the equity-based incentive compensation plan, which primarily include tax withholdings.
- (2) Certain derivatives used by the partnership as economic hedges have not been designated as hedges for accounting purposes and the mark-to-market changes of these derivatives are recognized currently in net income. The partnership excludes the net impact of these hedges from its determination of DCF until the related products are physically sold. In the period in which these hedged products are physically sold, the net impact of the associated hedges is included in its determination of DCF.
- (3) The partnership adjusts DCF for lower of average cost or net realizable value adjustments related to inventory and firm purchase commitments as well as market valuation of short positions recognized each period as these are non-cash items. In subsequent periods when the partnership physically sells or purchases the related products, it adjusts DCF for the valuation adjustments previously recognized.
- (4) Other adjustments in 2018 include a \$3.6 million one-time adjustment recorded to partners' capital as required by the partnership's adoption of Accounting Standards Update 2014-09, *Revenue from Contracts with Customers*. The amount represents cash that the partnership had previously received for deficiency payments but did not yet recognize in net income under the previous revenue recognition standard. Other adjustments in 2017 include payments received from HollyFrontier Corporation in conjunction with the February 2016 Osage Pipe Line Company, LLC ("Osage") exchange transaction. These payments replaced distributions the partnership would have received had the Osage transaction not occurred and are, therefore, included in the partnership's calculation of DCF.
- (5) Maintenance capital expenditures maintain existing assets of the partnership and do not generate incremental DCF (i.e. incremental returns to the unitholders). For this reason, the partnership deducts maintenance capital expenditures to determine DCF.
